OBJECTIVE

Looking for the job role of industrial Engineer where I can utilize my skills in analytical modeling, production and problem solving.

Education

- Bachelor of industrial & manufacturing engineering from Wichita state university, USA May 2017. GPA 3.12/4
- Diploma of accounting from Al ahsa collage of Technology, KSA Feb 2009. GPA 4.44/5

Work experience

- Alsaadoun Company: I worked as building Maintenance for two months
- Kaefer company: I worked there as Graphic designer and front desk receptionist for six months in 2009
- Now, I am working with Napco compact company as maintenance planner

Skills

- Fast learner and independent with strong leadership and critical thinking skills.
- Knowledgeable in industrial engineering: production system, QC and safety
- Industrial ergonomic class for 4 months following Osha SHA

Volunteer experience

- Teaching students at elementary school some knowledge of engineering for three months

Senior project: I did my project with Case New Holland (CNH). The problem statement in this project was feasibility analysis for relocation of engine sub- assembly line. Also, analysis the wastes of product line and ergonomics issues following Osha requirement
